-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 26 December 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 90-111, 114-120, and 123 drawn to a plurality of particles distributed in a waveguide in an increasing concentration such that a portion of light is scattered by the particles and emitted through a waveguide surface to provide a light gradient.
 - b. Group II, claim(s) 121, drawn to a component designed and configured to allow emission of light through a waveguide surface wherein the component is sensitive to temperature, moisture, and/or electromagnetic field such that a change in ambient temperature, moisture and/or electromagnetic field results in a change in a color and/or intensity of light emitted from the surface.
 - c. Group III, claims 125 and 126, drawn to a first portion of light emitted through a predetermined pattern on a waveguide surface and a second portion of light is emitted through an end of the waveguide.
2. The inventions listed as Groups I, II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Patent No. US 6,549,709 B1

to De Dobbelaere et al. ("the '709 patent") discloses a flexible waveguide sheet 3 (e.g., see the Abstract of the '709 patent). Thus, a flexible waveguide sheet or a flexible waveguide material cannot be considered a "special technical feature" because it is a structure known from the prior art. Accordingly, the independent claim(s) of Groups I, II, and II lack any common or corresponding special technical feature because there is no other limitation that could link them so as to form a single general inventive concept.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to OMAR ROJAS whose telephone number is (571)272-2357. The examiner can normally be reached on Monday-Friday (11:00AM-7:00PM).
